

St. Matthew's School proudly announces a program for 4 and 5 year old preschoolers. Our Enrichment Class is designed to enhance the daily preschool learning experience. These classes will focus on science, literacy and math in a play based environment. Small class sizes will allow for extended one-on-one interactions with the teaching staff.

Sample Enrichment Class:

Our goal today is to learn about the differences between solids, liquids and gasses. In order to achieve our goal we make:

- Goopy Gunk
- Magic Muck
- Squishy Balls

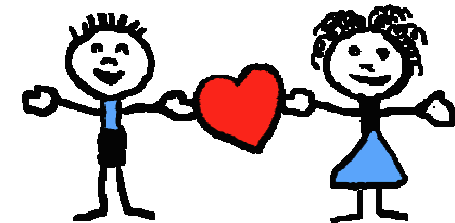

We define what solid, liquid and gas means. We talk about all the different properties of our creations and chart our findings.

Next we turn liquid into gas by boiling water to create steam, discussing how this phenomenon occurs. We make hot chocolate with our hot water, turning a solid into liquid. While the hot beverage cooled we make "Shake and Make Ice Cream", another way to turn liquid into solid.

These fun and educational activities are only one example of the learning which takes place in our fun filled enrichment class!

PRESCHOOL ENRICHMENT CLASS

2017-18

Important Details:

Times:

AM Session meets on Fridays from 9:00 to 11:30. PM Sessions meet on Tuesdays from 12:30 to 3:00. (*Due to school closings, some sessions may include days other than Tuesday or Friday.)

Enrollment:

Enrollment will close five weeks prior to the start of class; however the first session will close two weeks before the first session begins. In the event more than 12 children enroll, a lottery system will be used to determine placement.

Class Size / Ratio:

All classes will be limited to 12 children with a teacher and assistant.

Cost:

Each 6 week session is \$115.00.

School Closings:

If St. Matthew's School is closed for weather related reasons, classes will not be rescheduled.
