

Chapel Notes

February 14 and 15, 2018 Pastor Thadd

Today we talked about rainbows with Pastor Thadd. We started by talking about what they looked like. The children shared that they are in the sky, they are an arch, they have lots of colors (even pink – Pastor Thadd said that was a Valentine’s rainbow).

The children then heard the story of Noah’s Ark read from the bible. The children helped tell the story by making animal and rain noises. We learned that god sent a rainbow at the end of the flood as a promise that he would never send rain like htat again. When we see a rainbow we should remember God’s love for us.

We ended with a prayer of thanks.

Join us next month on March 21 and 22 when we hear the Easter story.
