

Chapel Notes

September 19 and 20, 2018

Pastor Thadd met the students today and we had a great Chapel visit!

We talked about how we are different and identified who has blonde hair, who has brown eyes, who has a nose, who has curly hair, who has a sister, who has two ears, who has a brother, etc. The children knew that God had created all of us differently!!!

We talked about how God made each of us unique and special and he created all the things that made us special, like our pets.

Pastor Thadd then read the children a story about Creation with lots of noises and body movements from the children. After the story, we learned a crazy song with crazy movements about how God created our world (and hippos). We sang faster and faster until we couldn't sing any more!!!

We ended with a prayer of thanks for our world and a request to help us take care of that world.

Join us in the Chapel on October 24 and 25.
