

# Chapel Notes

February 12 and 13, 2020

Pastor Thadd brought some props with him today. He had a yard stick to measure things around the church. He brought a measuring cup that can be used for lots of things like milk, chocolate, sand, water, cupcakes, eggs and much more. He also brought a tape measure for measuring large things, like how big a child is.

Pastor Thadd asked the children how they can measure love. They sure couldn't use the things he brought but they can show their love in lots of ways. The children thought showing love could come in many forms, such as telling people you loved them, hugging or kissing them, giving a gift, doing something nice or even making a card.

We all heard a story of "Hal and the Prickle Problem". The story was about Hal the hedgehog and his shedding quills. It was a prickly situation for his friends who kept getting poked by those quills. Hal asked God to help him to remember to clean up his quills. In the end all the friends joined in the cleanup and showed their love for each other.

We ended with a prayer asking God to help us to show our love to everyone.

*Next chapel will be on March 25 and 26 if you would like to join us in the sanctuary.*
